Thank you!

I just forwarded the quotes from Fireplace, Stone and Patio. They are going to go look at some stone addresses to see some of the exterior stone options we considered. We also plan to go back to Balthazar to see their options for the exterior (Tim and Mary stopped there on their own a few weeks ago).

- Fond Du Lac Stone Ridge (smaller cut natural stone warm tones) for the great room raised hearth facing
- modern chunky mitered cast stone surround and cap on top of raised hearth - ordered larger individual samples of four finishes from Omega

And for the exterior stone, they liked both of these:

- Sierra Falls Dimensional with more of a variety of rectangular cuts and variation from grays to taupes
- Glenveagh by Antiquity - maybe too white in color but liked the more classic "castle" shapes: <https://www.fireplacestonepatio.com/product/antiquity-glenveagh/>

Please share thoughts!

Hi Bri,

I wanted to follow up to see how the conversation about the fireplace design went and whether there were any other side discussions or feedback regarding the Great Room and Kitchen after our last meeting.

To help review the concepts we went over, here is the link to the latest project visuals: [[Link to Renderings](#)]. Please feel free to look them over and let us know if you have any additional comments or suggestions.

I have also attached the formal meeting minutes below for your reference, which outline what the clients loved about the space and the areas we are currently refining.

Looking forward to your thoughts!

Best regards,

Kent Rasmussen

Hello!

Here is the cabinet door profile they were both really happy with:

- CKF's Classic Ridgegate in Maple or Birch Almond finish
